

## Prohibited Items

At Centennial Moving Storage, we prioritize the safety and security of your belongings. There are certain items we cannot accommodate due to safety, legal, and operational constraints. Below is a comprehensive list of items unsuitable for storage with us. By ensuring these items are excluded from your storage list, you help facilitate a seamless storage process. Your understanding and adherence are highly appreciated.

**Hazardous Substances:** Materials that pose potential risks due to their properties.

- **Flammable and Combustible Materials:** Fuels, oils, paint thinners, aerosol cans, lighter fluid, propane tanks, and matches.
- **Corrosive Materials:** e.g., bleach, ammonia, cleaning solvents, and pool chemicals.
- **Explosive Materials:** Fireworks, ammunition, and charged scuba tanks.
- **Toxic Materials:** Pesticides, poisons, and select cleaning agents.
- **Reactive Substances:** Materials that can react dangerously, such as some pool chemicals or chemistry sets.
- **Other Hazardous Goods:** Car batteries, fire extinguishers, kerosene, etc.

**Perishables:**

- **Food Items:** Fresh produce, dairy products, meats, fish, and baked goods.
- **Plants:** Live plants requiring specific care.
- **Medical Supplies:** Certain medications or biological samples needing specific storage conditions.
- **Other Time-Sensitive Goods:** Film, specific adhesives, and products with a limited shelf life.

**Illegal Items:**

- **Controlled Substances:** Drugs or substances not legally possessed.
- **Stolen Merchandise.**
- **Counterfeit or Pirated Goods:** Including items infringing on copyright, patents, or trademarks.
- **Uncleared Goods:** Items not cleared through customs or illicitly obtained.

**High-Value Objects:**

- **Jewelry & Precious Gems:** Gold, silver, platinum, diamonds, and other precious items.
- **Art & Antiques:** Original artworks, sculptures, collectibles, and antique pieces.
- **Rare Collections:** Stamps, coins, vintage wines, and similar collectibles.
- **Electronics & Gadgets:** Premium electronic devices, cameras, watches, etc.
- **Historical Artifacts:** Items with substantial historical or cultural significance.
- **Designer Items:** High-end fashion pieces, bags, shoes, and designer-labeled goods.
- **Documents & Securities:** Stocks, bonds, certificates, deeds, or other essential documents.

**Weapons:**

- **Firearms:** Handguns, rifles, shotguns, and automatic weapons.
- **Explosive Devices:** From hand grenades to larger explosive charges.
- **Chemical & Biochemical Weapons:** Toxic materials in various forms.

**Live Animals or Livestock:** We cannot store living beings in our facility.

Thank you for ensuring these items are not included in your storage package.

At Centennial Moving Storage, the safety and security of your belongings are paramount to us. However, there are specific items we cannot accept in our storage facilities due to safety, legal, and operational concerns. Below, you'll find a list of items that are not suitable for storage with us. Ensuring none of these items are packed for storage will help avoid any complications or delays during the storage process. We appreciate your understanding and cooperation in this matter.

We refrain from storing:

- **Hazardous Substances:** including but are not limited to:
  - **Flammable and Combustible Materials:** Such as fuels, oils, paint thinners, aerosol cans, lighter fluid, propane tanks, and matches.
  - **Corrosive Materials:** Examples include bleach, ammonia, cleaning solvents, and pool chemicals.
  - **Explosive Materials:** Including fireworks, ammunition, and charged scuba tanks.
  - **Toxic Materials:** Such as pesticides, poisons, and certain cleaning agents.
  - **Reactive Substances:** Materials that can spontaneously produce dangerous reactions such as certain pool chemicals or chemistry sets.
  - **Other Hazardous Goods:** Items like car batteries, fire extinguishers, kerosene, and any other substances that could pose a risk during storage due to their properties.
- **Perishables,** including but not limited to:
  - **Food Items:** Such as fresh produce, dairy products, meat, fish, and baked goods.
  - **Plants:** Live plants that require specific conditions or care to remain viable.
  - **Medical Supplies:** Certain medications or biological specimens that may need refrigeration or special conditions.
  - **Other Time-Sensitive Goods:** Items like film, certain adhesives, and any other products that have a limited shelf life or require specific storage conditions.
- **Illegal items,** including but not limited to:
  - **Drugs or substances that are illegal or not prescribed.**
  - **Stolen goods.**

- Counterfeit or pirated items, Items that infringe on copyright, patents, or trademark.
- Goods that have not cleared customs or are smuggled.
- Any other items that are deemed illegal by the provincial or federal laws.
- **High-value objects**, including but not limited to:
  - Jewelry & Precious Gems: Items made from gold, silver, platinum, diamonds, and other precious stones.
